Fifty million climate refugees by 2010

[Click here, or on the graphic, for full resolution.](#)

Fifty million climate refugees by 2010. Today we find a world of asymmetric development, unsustainable natural resource use, and continued rural and urban poverty. There is general agreement about the current global environmental and development crisis. It is also known that the consequences of these global changes have the most devastating impacts on the poorest, who historically have had limited entitlements and opportunities for growth.

Use constraints

Using the graphics and referring to them is encouraged, and please use them in presentations, web pages, newspapers, blogs and reports.

For any form of publication, please include this link:
<http://maps.grida.no/go/graphic/fifty-million-climate-refugee-s-by-2010>

Please give the cartographer/designer/author credit (in this case *Emmanuelle Bournay*) and give **full recognition to the data sources** used in the graphic.

Feel free to feature links to this page, or other pages on this site, but please **refrain from linking to the actual graphics files directly**, if possible (i.e. [inline linking](#)).

Re-publishing the full resolution version of the graphics (high-quality png and pdf), un-modified, as digital files for download requires [approval from UNEP/GRID-Arendal \(use this form\)](#).

We do appreciate if you have the possibility to send us a copy of any printed publications featuring our graphics. See the UNEP/GRID-Arendal [contact page](#) for mailing address.

Available Downloads (please review use constraints above)

[Download this graphic in pdf format, 934 KB](#), suitable for print and editing.

[Download this graphic in png format, 871 KB](#), suitable for web-sites, documents or presentations.

Citation/Reference

Here are some suggestions for the the proper citation, in a number of styles that can just be copied and pasted into any documents. This is based on the template provided by [Wikipedia](#). For reference to any printed material, please see the details of the collection or collections this graphic is published in, which may be published in paper format.
